Hi Clancy,

Sorry I won't be able to make the tour. Too many other things going on. When you get the opportunity, let's have a catch up conversation.

Hello. Robin Richardson (EPA's acting national Superfund director) will be in Albuquerque on August 12-14 for a conference and we have offered her a tour of work that Randy Nattis is doing in the Haystack area on August 13. Her draft itinerary is attached. Region 6 would have also offered her a tour of the Jackpile Mine that afternoon. This itinerary is just preliminary and could change. We would welcome your attendance on the tour and I'm sure Robin would like to meet you. Let me know if you would like to participate or have questions at 415-972-3785.

Clancy Tenley

Assistant Director

Superfund Division

Subject: RE: August 13 uranium mine visit

Greetings Robin,

Thank you for making time for a tour on August 13. Please see itinerary below.

It will be a long day with lots of driving. It is in the 80s this week with scattered thunderstorms. We recommend boots or sturdy shoes, a hat and sun screen.

In the morning we will be visiting an abandoned uranium mine in the Haystack area of the

Navajo Nation, near Prewitt, New Mexico. OSCs will be conducting a Removal Site Evaluation of the mine, including 99% gamma scans and soil samples (see attached briefing paper). For more information about the Navajo Abandoned Uranium Mines, please see:

- 2013 5 Year Plan Accomplishment Report: <http://www.epa.gov/region9/superfund/navajo-nation/pdf/NavajoUraniumReport2013.pdf>
- 5 Year Plan: <http://www.epa.gov/region9/superfund/navajo-nation/5-yr-plan-2008.html>

LaDonna Turner of Region 6 will provide materials for the afternoon tour of the Jackpile mine on the Laguna Pueblo Indian Reservation.

Best regards,

Linda
